EDUCATION

Farmingdale State College | B.S. Computer Programming & Information Systems | Expected December 2026

Relevant coursework: Web Database Development, Database Systems, Data Management, Principles of Data Science, Systems Analysis & Design, Software Engineering, Web Development Frameworks

Nassau Community College | A.S. Liberal Arts Studies | 2021

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML, CSS

Web Development: Bootstrap, Responsive Web Design, UI Design

Databases: PostgreSQL, Supabase, Relational Database Design, ERDs

Data Analysis: pandas, NumPy, Data Cleaning, Exploratory Data Analysis

Tools & Technologies: Git, GitHub, VS Code, BeautifulSoup

TECHNICAL PROJECTS

Farmingdale Shuttle Tracker | Team capstone web application | PostgreSQL, Supabase, SQL

- Design and develop the relational PostgreSQL database to support shuttle routes, stops, schedules, and service information for a campus transportation web application.
- Create database tables, define primary and foreign key relationships, and implement SQL scripts to organize and manage application data.
- Collaborate with a team using GitHub to coordinate database changes and integrate the database with the larger application.

Hogwarts Student Registry | Independent database project | SQL

- Independently designed and built a relational database, defining tables, keys, and relationships.
- Wrote SQL queries to insert, retrieve, update, and delete records.

Personal Portfolio Website | Independent web project | HTML, CSS, JavaScript, Bootstrap

- Built a multi-page portfolio to showcase experience and projects using custom styling and interactive components.

SmartPark Campus Parking Application | Team software project | JavaFX

- Contributed to user interface design and application features in a collaborative project.

EXPERIENCE

T-Mobile — Mobile Expert | Hicksville, NY | October 2023–Present

- Drive sales of mobile devices, accessories, and wireless services by identifying customer needs and recommending appropriate solutions.
- Troubleshoot mobile devices, connectivity issues, and service-related problems to assist customers in restoring functionality.
- Assist customers with device setup, data transfers, software settings, and service activations.
- Meet individual sales goals while contributing to overall store performance in a fast-paced retail environment.
- Collaborate with team members to resolve customer concerns, support daily operations, and maintain a positive customer experience.
- Contributed to the store achieving high-volume status through strong sales performance and teamwork.

Wooded Acres Animal Hospital — Receptionist | Middle Island, NY | September 2020–September 2023

- Managed appointments, client communication, and patient records in a busy veterinary office.

CAMPUS INVOLVEMENT & HONORS
